

# Product Change Notification

Dear Customer,

This is to inform you that, starting from Dec. 1st, 2024 all the 32mm IREF PRO, IREF LITE and IRNET PRO sensors will be produced with label shifted 12mm (approx) to the left of the current one. It could happen that for the first deliveries you will receive parts with old positioning and new positioning: label already applied will not be modified

Date of issue	Nov 12th, 2024
Affected part number(s)	All 32mm IREF PRO, IREF LITE and IRNET PRO
Description of change	<div style="display: flex; justify-content: space-around;"><div style="border: 1px solid black; padding: 5px; width: 45%;">Old label positioning: aligned with "I" letter</div><div style="border: 1px solid black; padding: 5px; width: 45%;">New label positioning: aligned with "W" letter</div></div>  <div style="display: flex; justify-content: space-around; margin-top: 20px;"><div style="border: 1px solid black; padding: 5px; width: 45%;">Old label positioning: aligned with "I" letter</div><div style="border: 1px solid black; padding: 5px; width: 45%;">New label positioning: aligned with "W" letter</div></div>
